**Subject:** FBI/EPA/USAO visit on 28 January 2014

Bob,

As we discussed, we will have number of people visiting the Etowah River Terminal facility tomorrow. Here they are, with anticipated time of arrival:

1. 8:00 a.m.

- FBI HazMat and related personnel
  
- Phil Smith, Special Agent
- Anthony Rodriguez
- Rob Weiderhold, Senior Hazardous Materials Officer
- Charles Eisele
- Jason Lesko
- Linward Pylant
- Mark Aldrich
- Tim Pickle
- David Van Wagoner
  
- FBI Special Agent Jim Lafferty
- EPA Special Agent Nick Gillispie
- EPA Special Agent Kurt Grunert

2. 9:00 a.m.

- FBI Special Agent Hugh Mallet
- FBI Special Agent Jack Remaley
- FBI Special Agent Evan Patterson

3. 10:00 a.m.

- Booth Goodwin, US Attorney
- Phil Wright, AUSA
- Perry McDaniel, EPA counsel
- Ruth Sheff, paralegal
- Clem Mesavage, consultant

The HazMat folks tell me they anticipate their “prep work” may take a few hours, but if everything goes well, the tank may be entered around noon. Perhaps earlier. They also tell me that they must have a back-up rescue team available, so they have coordinated with Charleston Fire Department and Kanawha County to have an ambulance and rescue personnel there. These additional people will arrive sometime in the morning but no later than when the tank is actually entered.

Please call me should you have any questions. Thank you for your cooperation,  
Phil
